Dear Practice Manager,

Dispensing Doctor Scheme

As a member of our dispensing doctor rebate scheme, we are writing to inform you that we will be stopping the scheme. In line with the contract, we are providing you with one month's notice of this termination – we will provide rebates until 31st October 2017.

Going forward, we are pleased to announce that we have partnered with Clarity Pharma Ltd [hereafter: Clarity] to provide an alternative scheme for our products. Clarity will be contacting you in the coming weeks with details.

Please also note that Protelos (strontium ranelate) is being withdrawn from the market. Production has now ceased and we expect, based on current stock levels and current demand, that there is sufficient stock to continue to supply patient needs until the end of September / early October. We will continue to include purchases under the scheme until the scheme is terminated.

If you have any questions on the withdrawal of Protelos you can contact Servier Medical Information on 01753 666409.

Kind regards,

Stephen Philpott
Director of Finance
