

CD Registers

The CD Register plays an invaluable role in the governance of Controlled Drugs in a dispensing practice

Comprising 15 pages, the DDA's CD Register has been designed to allow dispensing practices to log transactions and balances for each drug on a one-drug-per-Register basis.

As a member, we are delighted to bring you a CD Register 'bundle' offer.

In the bundle offer, practices will receive a pack of 20 Registers – plus two free registers – for just £26 including postage.
