GP contract agreement for 2022/23

- 2022/23 is the 4th year of the 5 year contract agreement
- Following a stalemate in negotiations between GPC England and NHS England, the changes that came into effect 1 April 2022, were not agreed or endorsed by the BMA
- The five-year framework concludes at the end of March 2024; the existing GMS contract at that time will automatically roll forward unless it is changed
